City of Kingston's Department of Public Works Announces Paving Projects

The City of Kingston's Department of Public Works is pleased to announce that this year's paving and streets projects began in full swing on May 9th, with the placement of 4,500 tons of blacktop. Seven streets have been paved, beginning with First Ave. from Larch Street to the Town of Ulster line, as well as Kingston Street, 4th Avenue, Ulster Street, and the upper portion of 2nd Avenue, finishing with Park Street and a section of Clifton Avenue.

Superintendent Michael Schupp stated this week that the next round of paving should commence later this summer and will include Clinton Avenue from Pearl Street to North Front Street, Prospect Street, North Wilbur Avenue, and Gage Street. Schryver Court is also scheduled to undergo new curbing and sidewalk replacement, following last year's drainage improvements. Other projects will include some guard rail installation, curb replacement on Green Street, along with ADA corners on Green and John Streets.

Scheduled Paving:

- Clinton Ave. from Pearl to North Front
- Prospect St. - Franklin to Henry
- Schryver Court
- North Wilbur Ave.
- Gage Street

Schupp stated that all of this work could not be completed without the assistance from neighboring towns like Esopus, Ulster, Town of Kingston and the U.C. DPW, through shared services. "If it weren't for the excellent working relationships that we share with other municipalities, we would struggle to accomplish our project goals. We are always grateful for the help we receive and we reciprocate when we can".
